Legal Notices.

In the Supreme Court of Civil Justice of  
Vancouver Island.

In the Matter of the Act to cure Imperfect Titles,  
1860.

IN CHANCERY.  
Between William Sellick, Plaintiff, and Henry  
Simpson, William Edwin Elliott,  
Elias Wright, Helen Blanche Elliott and  
Ellen Elliott, Defendants.

UPON READING THE BILL FILED HEREIN ON THE  
1st day of May, instant, and the affidavits of Henry  
Simpson, one of the above named Defendants, also filed  
herein on the 1st day of May, and upon hearing Robert  
Edwin Jackson, Solicitor for the above named Plaintiff, I  
do order that the above named Defendants, Henry Simp-  
son, William Edwin Elliott, Elias Wright, Helen Blanche  
Elliott and Ellen Elliott do show cause within twelve months  
from the date of this order, why a decree should not be  
made in this cause resting in the said Plaintiff the legal  
and equitable fee simple in all that piece or parcel of land  
known as Suburban No. 1, Situated upon the  
Official Map of Esquimalt District, Vancouver Island, ex-  
cepting a certain portion thereof, North-east of a road  
known as Jones' Road, which in the conveyance thereof  
from the above named William Edwin Elliott, to the said  
Henry Simpson, was executed and recorded for the use of  
the said William Edwin Elliott. And I do further order  
that a copy of this order be published for three consecu-  
tive months in one of the Daily Newspapers published in  
Victoria, V. I., and that a copy of this order, and also  
of the said bill, be sent by the Post Office, to the above  
named Plaintiff, and that in registered letters be mailed  
at the General Post Office in the City of Victoria, ad-  
dressed to the Defendants, at the places of residence in  
the said bill mentioned.

Dated the Eleventh day of May, A. D. 1866.

J. S. JOSEPH NEEDHAM, C. J.

Drake & Jackson, Solicitors, Government Street.

IN THE MATTER OF J. J. MCCREEDY.

IN BANKRUPTCY.

I, RICHARD WOODS, being the  
Acting Registrar of the Supreme Court of Victoria,  
do hereby certify that on the 25th day  
of June, A. D. 1866, a certain deed or instrument bearing  
date the 21st day of June, A. D. 1866, and made and  
executed by and between John Joseph McCreedy of the  
first part, and William Parsons Sawyer of the second  
part, and the said John Joseph McCreedy of the third part,  
McCreedy of the third part, by a deed or instrument  
conveying all the estate and effects of the said John  
Joseph McCreedy, to be applied and administered for the  
benefit of the Creditors of the said John Joseph McCreedy,  
on the 26th day of June, A. D. 1866, and at the  
hour of eleven o'clock of the said day, was duly  
brought into my office for registration, and was duly  
registered pursuant to the provisions of the Bankruptcy  
Act, 1861.

Given under my hand and the seal of the Court, at the  
Court House, Victoria, June 25th, 1866, and after the  
26th day of June, 1866.

J. S. RICHARD WOODS, A. E. [L.S.]

In the Estate of J. J. McCreedy.

ALL PERSONS INDEBTED TO MR.  
J. J. McCreedy, are hereby notified not  
to pay any sum to any person but the undersigned, and to  
pay in the same forthwith. And all Creditors are hereby  
requested to send in their accounts to the undersigned  
within the time therein specified.

W. P. SAWYER,  
C. KENT,  
Assignees of the Estate of J. J. McCreedy. Jy2

In the Matter of the Estate of S. Elaser.

who has made an Assignment for the  
benefit of his Creditors.

NOTICE.

A SECOND DIVIDEND IN THIS ESTATE OF THE  
said S. Elaser, will be paid at the Office of Messrs.  
Wheeler & Son, Government Street, on and after the  
26th day of June, 1866.

## The Trap Sprung.

After all the protestations of patriotism and love of country indulged in by certain honorable (?) members of the Legislative Assembly, their constituents are at last enabled to strip off the flimsy garb that has long clothed their designs, and expose them in all the hideous deformity of their corruption. It is well known that from the first this journal has opposed the manner in which the non-confidence resolutions were foisted on the House; and the proceedings at the last sitting of the Assembly fully justify us in reiterating that opinion to-day. That the resolutions were introduced and passed for no other than a corrupt object, must be now apparent to even the most obtuse. With a nonchalance that would have done credit to a Machiavelli, Mr. DeCosmos rose to his feet yesterday, and asked the Speaker if the resolutions had been transmitted to His Excellency? The Speaker replied that they had not, whereupon Mr. DeCosmos moved that the transmission be stayed until a further order upon the subject had been made by the House, and, in connection therewith, gave notice of the following motion:

"That the House take into consideration, on Monday next, in Committee of the Whole, the propriety of suggesting to the Executive the passage of this session, of an Act establishing a Ministerial Council."

The introduction of this motion threw the whole House, with the exception of the few who were in the secret, into a *furore* of excitement. Dr. Dickson and Mr. Young both denounced it as flagrant and outrageous, and Dr. Ash was quite as severe, while Mr. McClure and Dr. Trimble, after a brief whispered colloquy with the mover, swallowed the dose and consented to dispose of their constituents for the chance of securing a seat in the Ministerial Council. The members who had conscientiously supported the resolutions saw at a glance that gubernatorial influence had been brought to bear upon the "purest and best" of the land, during the last two days, and after vainly attempting to stem the current of corruption which had commenced to flow, Messrs Young, Ash and Dickson beat an indignant retreat and left the three recreant Clubites to their fate. With the consent of Messrs. Piddell and Powell, the rules of the House were suspended, and the transmission of the resolutions "stayed until further orders." The motion of Mr. DeCosmos will be considered on Monday. This extraordinary "turn-about-and-jump-Jim-Crow" game has created a greater amount of indignation in town than any political event that has yet taken place in this Colony; and the prevailing idea is, that the three members who have proved recreant to their trusts had accepted seats in the proposed Ministerial Council in exchange for their votes yesterday. But in their eagerness to secure an honorable position in the country, these plotters forgot that, according to our Constitution, the Governor can no more constitute a Ministerial Council than he can create a Star Chamber. He dare no more depart from his Letter of Instructions—which is our only Constitution—than he dare declare himself the King of Vancouver Island and its dependencies. They also overlooked another important fact; that they have killed the "no confidence" resolutions, for when they suspended them like the sword of Damocles over His Excellency's head, which was to be suffered to fall if he failed to accept three members of the Lower House (meaning themselves) as his advisers, they placed it in the Governor's power to write to the Colonial Office to the following effect: "These men want official position and patronage; if I had consented to employ them, the vote of 'no confidence' would not have been passed. Feeling assured, however, from a knowledge of their political characters, that they are not fitted for positions of the kind, I have refused to accede to their wishes and hence they have 'no confidence' in my government." Such will be the tenor of the despatch of Governor Kennedy enclosing the resolutions, and the only answer the Assembly will ever receive will be a despatch revoking the little power they now possess. Were we not right on Tuesday, when we said that the Assembly had been caught in a trap? The contemptible position that these political charlatans occupy to-day in public estimation is difficult to describe. Of all the demagogues in the House they have cried the loudest for the People's Rights; but it now appears that, like

a Siwash with his fish, they have peddled these rights from door to doorway "how much?" and have accepted the first offer. And of such are Vancouver politicians! In the course of his remarks yesterday, Mr. DeCosmos said, "the country wants peace." Mr. DeCosmos is right. The country *does* want peace. It has no desire to be perpetually in political hot water. It is sick and tired of the political firebrands that are continually being hurled into its midst by DeCosmos and his followers. It is weary of never-ending political agitation. But it does not want a patched-up—a purchased peace. It does not want its representatives to exchange its interests for the privilege of being called "Ministerial Councilors," or the right to tack honorable (?) to their names. For ourselves we are glad that the deathblow has been dealt to the resolutions, because their transmission home, in our opinion, would have done harm to the Colony, and because the moderate resolutions proposed by the Speaker, but rejected by the corrupt majority, would have done good; but we cordially sympathize with the honorable gentlemen who conscientiously favored their passage, in their disappointment. The blow would be hard to bear if dealt by a hand known to be hostile; but coming, as it does, from professed friends, it is rendered doubly severe.

### SPECIAL TO THE COLONIST AND CHRONICLE.

### YESTERDAY'S DESPATCHES!

**California.**  
San Francisco, July 25th.—The bark *Labelle*, which cleared from here January 25th, was wrecked.  
The Bremen bark *Belle*, under command of Captain Tobias, on her passage from San Francisco to Hongkong, with a cargo valued at \$300,000, was cast away on the 4th of March on an uninhabited and dangerous reef called Wake Island. The passengers and crew remained on board during the night, the sea breaking furiously over the wreck all the while, and landed with difficulty through the breakers the following day. After an ineffectual search for water and much privation, it became imperative to take to the boats, taking such provisions and water as were saved from the wreck. The passengers were transferred to the ship's long-boat, in charge of the first mate, the captain preferring his gig, and on the 27th, both boats sailed for Ladrones or Mariana Island—twenty-two persons with provisions, in an open boat but 22 feet in length, to undertake a voyage of 1400 miles, subject to occasional storms, calms, tropical sun, short rations, over an ocean studded with hidden rocks and coral reefs. The captain, with eight persons in a small boat, which left at the same time has not been heard from, and unless picked up by some chance vessel, must have been swamped, as a heavy cross sea was met with shortly after leaving the Island. Among the passengers were Madame Anna Bishop, Miss Phelan, Mr. Shultz, Charles Lascelles, of the celebrated English opera troupe, and Eng. M. VanReed of Kanagawa. A schooner has been sent to search for the missing boat among the Islands to the northward, and to return to Wake Island and remove a large amount of treasure which was saved and buried there.  
Arrived—Bark George Washington, 11 days from Free Port; bark Annie Sharp, 157 days from Glasgow.  
Sailed—Ship Windward, Hongkong; ship Asia, London; bark Rival, Victoria.

### LAST NIGHT'S DESPATCHES.

**California.**  
San Francisco, July 27.—Eastern line out of order beyond Laramie.  
The Sutter Street Railroad Company have broken ground at the junction of Sansome and Sutter, preparatory to extending their road through Battery to Vallejo street.  
The arrival of the Siam ship *Sika Greenman* has presented some difficulties at the Custom House, which have not yet been settled. Officials think they must add 10 per cent. additional duties on the cargo, because there is no reciprocity treaty between this country and Siam. The consignees of the ship will telegraph to the Washington authorities to find out whether such a discrimination is just and equitable.  
The auction sale of San Francisco and Pacific Refinery sugars was the principal feature in the general merchandise markets this morning. Circle A crushed was sold at an average decline of from 1/2 to 3/4 of a cent on previous days. Sale of other kinds brought relatively better prices.  
The market for exchange and bullion for Monday's steamer has not fairly opened yet. Leading bankers quote coin drafts on Atlantic at 2 1/4 per cent.; currency do, 4 1/2 per cent. on gold; telegraph transfers 3 per cent.; 60 days bankers' exchange, 4 1/2 per cent.  
Flour, some sales for export to Mexico—jobbing trade, without charge; superfine, half-sacks, \$4 75/100; quarter sacks, extra half sacks, \$5 25/100. Wheat, good new, \$1.50, prime new, \$1.55 per 100; barley, some inquiry, holders not willing to sell at ruling quotations; potatoes, Mission's, 60c./@.65c. per 100.  
No later gold despatches. Market for Legal Tenders unchanged, 71 buying, 71 1/2 selling.  
Arrived—Argentine bark *Jose*, 44 days from Carmen Island; British bark *Speedwell*, Cork; steamer *Pacific*, San Pedro.  
The New York *Herald* had the following startling caption to a long editorial: "Shall we have the cholera, or some other deadly disease in New York?" To which the *Louisville Journal* replied: "You, who say the cholera and you have your choice!"  
An excited father called in great haste on Dr. Abernethy and exclaimed in an excited manner: "Doctor! Doctor! my boy has swallowed a mouse!" "Then go home," quietly replied the Doctor; "and tell him to swallow a cat!"

THE SCHOONER INDIAN MAID,

UNDER A DECREE OF THE VICE-

Admiralty Court the above schooner, with her tar-

ble, apparel and furniture, will be sold by Public Auc-

tion on WEDNESDAY, the 1st day of August, 1866.

The above schooner is now lying on Messrs. Bolton & Co's wharf, Nanaimo. She has just undergone thorough repairs, having been stroked with inch and a quarter timber, and has had a new keel, 1810, put in, with new

garboard strakes, and also two large ways (30 ft) put on. Her cabin has been stowed and altered, and the rigging and sails have undergone thorough repair and overhauling. Her running gear and blocks are all in good order. There are two anchors with a quantity of chain, and two stoves with cooking utensils—the whole to be sold without reserve.

For particulars apply to

Legislative Assembly.

FRIDAY, July 27th, 1886.

Assembly met at 1:15 p. m. Present: The Speaker, and Messrs. A. Trimble, Young, Dickson, Fiddell, Powell, DeCosmos, McClure.

THE REPLY.

Mr. DeCosmos asked the Speaker if the Reply to His Excellency's Message No. 33, 6th July, was still in the House? If so, he would move that its transmission be stayed until a further order upon the subject be made by this House. He did so in order that a question of great public importance, of which he would ask leave now to give notice, might be taken into consideration before that document was sent out of the House. The notice was as follows: "That this House take into consideration, on Monday next, in Committee of the Whole, the propriety of suggesting to the Executive the passage, this session, of an Act establishing a Ministerial Council to advise the Executive in all Legislative matters—such Council to be drawn from the Upper and Lower House."

The Speaker stated that the reply was in the House, and ready for transmission; that the motion of the hon. member was, in strict Parliamentary rule, out of order, but that if the House decided that it was advisable that the transmission of the reply should be stayed, he would not enforce any objection.

A warm debate ensued upon the point of order. Messrs. Ash, Young, and Dickson withdrew. Mr. DeCosmos then moved that the standing orders be suspended, in order that the transmission of the reply be stayed until further instructions had been granted by the House.

Dr. Powell seconded, and the rules were suspended by unanimous consent. Mr. DeCosmos' motion was then made the order of the day for one o'clock on Monday next.

ROAD ACT.

Dr. Trimble asked leave to lay upon the table of the House the amendments to the Road Act, which were made the order of the day for Wednesday.

THE DREDGER.

House went into Committee: 1st.—On the Governor's Message relative to the works and improvements of Victoria harbour; 2d.—On the Governor's Message recommending that means should be placed at his disposal for the completion of the ditch at Leech River.

The Committee resolved that it was not advisable to sell the dredger or steam-tug; but would suggest that the dredger and punts be removed to a fresh-water stream to prevent destruction by marine accumulations. With regard to the ditch, the sum of \$4000 was voted and ordered to be placed on the Estimates. The Committee also reported the Militia Bill complete.

The House adjourned until Monday.

The Ministerial Council.

Editors COLONIST & CHRONICLE.—Whatever other characteristics attach to the House of Assembly, consistency and fixedness of purpose are certainly not prominent. After lengthy deliberation, a reply to a gubernatorial message was adopted by a full House the other day, and ordered to be forwarded, with sundry resolutions, through His Excellency to Her Majesty. To-day, before the clerks could perform their task, the Rules were suspended, and in a thin House, five members direct that the order be not carried out until some yet undecided alteration in the constitution of the Colony shall be passed by the House and submitted for His Excellency's assent. Should the assent be withheld, then the condemnatory documents are to be sent! It is surprising that the fact escaped the attention of the leading statesman that the measure is an utterly impracticable one. An Executive Council, now exists by authority of the Imperial Parliament, and, whether wisely constituted or not, cannot be ignored or set aside by any authority in the Colony. Such a committee as is proposed could not supplant the Executive Council, and the latter body could not, without an entire abandonment of self-respect, permit such an invasion of its rights to take place without impeaching the Governor for maladministration and disregard of the Royal Instructions were he to venture upon the course suggested. It is to be hoped that a full House will rebuke the temerity of the aspiring few, and show that it is not ignorant of constitutional law.

July 27, 1886.

SNUB.

THERE IS NO SPOT ON EARTH SO DEAR.—Notwithstanding the complaints of hard times, and the frequent longings that we hear uttered to leave the country, it is a singular fact, that those who have returned to the old country, look back upon this as one of the brightest spots on the face of the Earth, and desire to return. Our old friend Mr. Fardon, after a sojourn in England of several months, says that he would under no consideration exchange climates or residences; and he intends to link his fortunes for the rest of his days with this country; while we hear that the Rev. Mr. and Mrs. Lowe, Mr. and Mrs. Alfred Fellows and other well-known residents are talking of returning to the Island.

TROUBLES WITH INDIANS.—On the banks of the River connecting Shuswap and Kamloops Lakes, the Indians claim a reservation of 60 miles in extent. On the opposite side are a number of settlers with some very fine ranches, who suffer great annoyance from the Indians. When a settler commences to cut hay, the Indians will cross over, and set fire to it, and if any settler attempts to preempt on their side of the water, they will drive the man's stock away, and destroy his homestead. This has been done in two instances. Mr. Trutch has promised to meet the Indians in August, and investigate their titles.

THE PANDORA STREET MURDER.—Jim a New Westminster Indian, and Jim a Son-gish, son of the late Chief King Freely, were yesterday placed in the dock of the Police Court, charged on suspicion of being concerned in the murder of Edwin Eurlin. Two witnesses, Thomas Wilson and an Indian woman with whom he cohabited, were examined, and swore positively that the Indian Tom, the brother of Mrs. Wilson, did not sleep in their house on Sunday night last, as stated in his evidence before the Inquest. Witnesses could state nothing else that would throw any light upon the enquiry.

Freight from Yale to Williams Creek is being contracted for at 10 cents per pound.

Pic-Nic.—The children of the Presbyterian Sunday School proceeded yesterday forenoon with the Rev. T. Somerville, the teachers, and a number of friends, to a delightful retreat in the vicinity of Jay's nurserygrounds, to enjoy a pic-nic. Refreshments were provided for the young folks, who amused themselves as young and blithesome hearts only can. Before returning home, addresses were delivered by the Pastor of the Church and other gentlemen present, and photographs were taken of groupings of the boys and girls. The weather was magnificent, and all were happy as the day.

THE COLUMBIA TRAIL.—We learn from Mr. G. E. Nias that Mr. Turnbull, the Surveyor who has been acting under Mr. Moberly in constructing the road from Seymour to the Columbia, had got through by the South Pass, from what is called the South Arm of the Shuswap to the Columbia River. He reported the pass 1000 feet higher than the northern one, and totally unfit for a trail in the spring. It is not known whether he took the same route described by Mr. Norris and others as such an admirable one, with plenty of food, and no greater altitude to cross than a few hundred feet.

EMPLOYMENT FOR THE DREDGER.—It has been suggested to us that instead of taking the dredger to a fresh water stream merely for the purpose of making a raid upon the barnacles and other innocent marine accumulations on her bottom, she might be taken up Fraser river and dredge the stream for gold. It is well known that the bed of the river is full of the precious metal in many places, and the Government might, for ought they know, bring up nuggets as large as the claims that were dredged up at the harbor's mouth two years ago.

THE CROWN LANDS TO BE THROWN OPEN.—It is currently reported that Governor Kennedy has stated that he has matured his plans for throwing open the Crown Lands of the districts of Vancouver Island to pre-emption. If this be true, an epoch will be inaugurated, which will, in a few short years, place this Colony on a basis of permanent prosperity.

THE NEW MINISTRY.—The following list of the new Cabinet Ministry was posted on our bulletin board last evening: Premier, Leons and McClure; Chancellor of the Exchequer, Amor DeCosmos; Chief Commissioner of Woods and Forests, John Trevasso Piddwell; Attorney General, Thomas Lett Wood; Post Master General, William A. G. Young; Surveyor and Jamper General, Dr. Trimble.

LEACH RIVER DITCH.—It is rumored that the object of Sir James Douglas and Hon. Donald Fraser's visit to Leech River, is to examine the locality, and that should they think favorably of the proposed ditch, to complete it at their own expense, had the Assembly declined to vote the money necessary.

PRESIDENT JOHNSON, it is said, has recently got off a pretty fair joke. A Connecticut office-seeker closed a recent application for office, with an inquiry whether the breach between the President and Congress could not be repaired. The President wrote, in reply, that he is not as much in the line of "repairing breaches" as he formerly was.

THE CAMP.—The Volunteers entertained a large number of their friends at the camp last evening in a most hospitable manner. This afternoon, at 3 1/2 o'clock, camp will be broken up and the members will march into town.

MR. DIBBY PALMER requests that orders for teaching, playing and tuning Pianofortes and for instruction in Singing, may be left with Messrs. Hibben & Carwell, Stationers and Booksellers, Government street, or at his residence near the top of Fort street.

RACING GIG.—Lichapello is building a remarkable handsome racing gig for the Vancouver Rowing Club. The boat is 38 feet long, and looks as if she was going to be a regular clipper. It will be several weeks before she is finished.

THE "NANAIMO GAZETTE."—This paper, it is said, will be issued. A quantity of printing material, consigned to the former publisher, went up on the Emily Harris, on Wednesday.

ROUND THE CORNER (FORMERLY EBERHARDT'S SALOON) Langley Street, will be opened this (Saturday) evening, July 28th, at 8 o'clock, by Jacob Herkimer, who will be happy to see all his friends.

THE MARCH OF IMPROVEMENT.—A two-horse buggy carries an express between the Cariboo towns of Richfield, Barkerville, and Camerontown—running at regular intervals each day.

BANKRUPT COURT.—Re Estate of McCreedy.—His Honor yesterday ordered an issue on the validity of the bill of sale by the father to his son Thomas McCreedy, of his household furniture, to be tried by jury.

MILLINERY.—Just received at Victoria House, a large assortment of Trimmed and Untrimmed Hats and Bonnets, which will be sold at very low prices, on account of their late arrival.

LILLOOET (B. C.) FLOUR.—A quantity of this flour has reached Cariboo, where it has been tested, and pronounced little inferior to the best Golden Gate.

THE LAUNCH OF CAPT. STAMP'S new steamer will take place to-day, from Mr. Trahey's building yard, at 4 p. m.

The Fidelity will sail at 2 o'clock this afternoon for Portland.

From Utah.

We condense the following from the Salt Lake Herald of July 5: Judge Lawrence, special postoffice agent, has gone to the Pahrangat mines, via Egan Canyon, to establish such mail routes and postoffices as he may find necessary. He is accompanied by Captain Albert, late of the 2nd California Cavalry. The weather is intensely hot. Brigham Young is talking very harshly to his flock for not coming down more freely with money to finish the temple. A Masonic festival was held on the 2nd. During the evening the postoffice connected with it, was burned. The Pahrangat mines are attracting a vast amount of capital. The Cottonwood, Bingham Canyon, and Deep Creek mines are being developed with the most favorable prospects.

Cariboo Mining Intelligence.

[From the Cariboo Sentinel, July 16.]

WILLIAMS CREEK.

The Watson co's washed out for week about 25 ounces. Never Sweat co's washed out for week 30 ounces. Cariboo co's washed out to Thursday 36 ounces. Morning Star co's washed up for week 30 1/2 ounces. California Tunnel co's washed up for week 93 ounces. Last Chance co's washed up for week 100 ounces. Cameron co's washed up 126 ounces for the week, would have done better had they not been troubled with the ground caving. Forest Rose co's washed up for week 100 Pounds. Prairie Flower co's washed up for week 100 ounces. (Baby co's washed up for week over 100 ounces. Dead Broke co's made for last week about \$20 a day. Rankin co's paid last week about \$19 a day to the haul.

STOUTS CULCH.

There is not a claim on the gulch that will be worked out for two years to come, the probability is that claims next season will be more productive than this, from the fact that improved appliances are being and will be adopted, thereby facilitating the working of claims, we mean the hydraulic or ground sluice process. The High-Low-Jack co's are not doing so well as formerly, but are still making about wages. The Floyd co's are pushing ahead with their Drain Flume, having now laid about 300 feet of it, they do not calculate on getting much pay this season as they have a great deal of old ground, which is very deep, to go through. The Alturas co's have got over 500 feet of flume laid, the nature of the ground being such that they can run off an immense quantity in the course of a week; they are fast approaching the bed rock with the grade of the flume, and it is probable they will be taking out pay by the end of the week. Jenkins co's washed on Thursday 15 ounces and for week 59 ounces. The Muecho Oro or Australian co's who have just started, washed up on Thursday 17 1/2 ounces, the result of two shifts with one pick; the day before they had 10 ounces, in all up to Thursday 30 1/2 ounces. Emery co's 5 men at work, wash up on an average from 30 to 40 ounces a week; they expect to do better this week as the rock seems to pitch off with evident signs of containing more gold. The Union co's got down with their shaft and got a good prospect.

CONKLINS GULCH.

We are glad to learn that the Reid co's have begun to take out pay from their middle shaft. They washed yesterday nearly 40 ounces and would have done extremely well last week but for the obstruction occasioned by a large boulder which they have been blasting for the last three days. It is expected that both shafts will be yielding good returns during the present week. New Zealand co's unfortunately just as they had got into their drift caved, the rush of water out of the face soon filled up their pump hole with mud and slum stopping their pump, it will take 6 or 8 days to repair damages. They had just struck dirt that would prospect from \$2 to \$4 to the pan.

GRUBBS CREEK.

The companies at the upper end of the creek, on the benches, are finding every evidence of the continuation of the channel although nothing has yet been struck. The Heron co's will not be ready to wash before Wednesday. The Short Bend co's divided 5 ounces to the share for the week. The Discovery co's are still running their tunnels they struck a good prospect in one of them. The Full-Rigg co's are doing well.

LOWE'S CREEK.

The various companies on this creek are doing well, we have only heard of the delay from the Vaughan-Sweeney co's who washed up on Friday 60 ounces, being obtained out of the top gravel run through the sluices by the hydraulic pipe. This claim will pay big when the bed rock is cleaned up which will only be done when the water gets scarce. The Washburne co's are said to have struck good prospects in their shaft after drifting about six feet.

STEVENS CREEK.

We understand from one of the members of the Bed Rock Flume co's on this creek, that they have abandoned the undertaking after two years fruitless efforts to strike pay.

Oregon.

[From the Oregonian.]

A man known as Gulliver is in jail at the Dalles on the charge of stealing jewelry and \$120 worth of a drying woman named Davis. The stolen articles were found on his person.

We learn by letter from Eagle creek that the copper mining company has struck a new and rich vein of ore, after having gone through a stratum which was almost totally barren. The placer mines are paying from "wager" up to an ounce per day, and in some instances as high as fifty dollars.

It is reported that a Mr. Chapman and his son were killed a few days since by some Indians, belonging to the Simcoe Reservation.

A Jefferson correspondent informs us that there has been great excitement on the North Fork of the Santiam in relation to a supposed murder there last Monday, the 16th. John Thomas, keeper of a ferry across the Santiam, states that while about some work on the north side, a stranger approached him with a drawn revolver and demanded his "money or his life." Thomas, who was carrying a gun, told him he had one dollar—he regained his axe which he had laid down, and struck the stranger a blow with it, knocking him into the river. Thomas then went to a campsite, meeting a short distance from the spot, related what he had done and then went to Justice McElroy and surrendered himself. He had an examination, but there being no evidence of a murder—the body not having been found—he was discharged. The people of the neighborhood are greatly excited, suspecting Thomas of having committed the double crime of robbery and murder and then trumping up the story as above. Search has been made both in the woods and in the river, but without finding any body. Thomas was subsequently arrested in Lincoln county, and committed in default of bail to jail at Albany to await trial in the Circuit Court on a charge of murder. At one time the citizens of the neighborhood talked very strongly of hanging him without further investigation. He is a brother of the Thomas who murdered a man at Seio two years ago.

Execution of Probst the Philadelphia Murderer.—The execution of Probst, who murdered a whole family near Philadelphia recently, took place June 9th. A despatch of that date says: The procession soon reached the place of death, Probst the white man maintained the same gravity of demeanor that had characterized his conduct for the past few days. The sight of the gallows did not unnerve him; indeed, it seemed to affect some of the spectators more deeply than the criminal. He walked up the ladder with a firm step, paying little or no attention to those around him, or to anybody in fact, except his religious advisers. Only once during the ceremony had his mind apparently wandered to other things. As he was leaving his cell, the keeper, who had mainly taken charge of him, extended his hand and said "Good-bye." Probst responded "Good-bye," while his voice choked with emotion and tears filled his eyes. Regaining his wonted composure he maintained it thereafter to the end. Probst was accompanied on the scaffold by his clergymen, the Sheriff and his wife. Without hesitation, he knelt upon the drop with the priests, and together they recited the Lord's Prayer, the Hail Mary and the Apostles' Creed in the German language, the victim repeatedly "kissing the crucifix. The last act was alone to be performed and the tragedy was over. Quickly Probst was handcuffed and the noose placed around his neck. Not a murmur escaped his lips, and his eyes, barely suffused with tears, were turned to heaven. The white cap was then placed upon his head, but he still stood firm; there was no trembling and but the least agitation. Courageously had the culprit prepared to meet his fate. But a moment more and the murdered Deering would be avenged so far as man's laws could avenge them. A last prayer from Father Grunder, a signal, the drop fell, and Anton Probst had gone to his last account.

The murderer must have died easily. Beyond a few convulsive twitching, there was no evidence that he experienced agony. 25 minutes afterward the body was cut down, placed upon a small truck and removed from beneath the scaffold. The spectators and clergymen surrounded it, and all uncovered while the latter read the last prayers for the dead, sprinkled the corpse with holy water and then consigned it to the surgeons. The law had given up its victim for the benefit of science.

AN American young lady was reading Don Quixote, and came to the place where the fellow whom the Don prevented from beating the lad promised to pay the latter's wages in "perfumed money." "You see he only owed the boy some cents," said the lovely Columbian.—Punch.

MURRAY & LANMAN'S FLORIDA WATER.—The test of the genuineness and purity of a floral perfume, is its duration—when exposed to the air. The aroma derived from chemical oils soon dies out, and leaves behind it an odor which is anything but agreeable; but that which is obtained by distillation from fresh and odoriferous flowers and blossoms improves by contact with the air, and lasts a great length of time. Hence Murray & Lanman's Florida Water, the concentrated product of rare Southern flowers gathered in the zenith of their bloom and fragrance, has not only the freshness of an unwithered bouquet, but is indestructible except by the washing of the article moistened with it. See that the names of "Murray & Lanman" are upon each wrapper, label and bottle; without this none is genuine. For Sale all resellers of Druggists.

A New and Grand Epoch in Medicine.—Dr. MAGGIEL is the founder of a new Medical System! The quantarians, whose vast internal dose can be the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most violent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Magguel's Pills and Salve have opened the eyes of the public to the inefficacy of the (so-called) remedies of others, and upon which people have so long blindly depended. Magguel's Pills are of the class of those medicines, of which every box full taken creates an absolute necessity for another. One or two of Magguel's Pills suffice to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant. There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored, and if the nervous system is feeble, it is invigorated. This little quality makes the medicine very desirable for the wants of delicate females. Nervous and eruptive diseases are literally extinguished by the direct effect of Magguel's Salve. In fact, it is the most powerful of all remedies. It cures Bilious, Dyspeptic and Diarrhetic Pills cure where all others fail. While for Burns, Scalds, Chapped Lips, Cuts, and all sores of the skin, Magguel's Salve is infallible. Sold by J. MAGGIEL, 111 West Street, New York, and all Druggists, at 25 cents per box.

GENTS.—Having used and witnessed the beneficial effects of PERRY DAVIS' PAIN KILLER, I take great pleasure in recommending it to the public as the very best Family Medicine with which I am acquainted. In this establishment are employed nearly one hundred persons, and your PAIN KILLER has been used with the most astonishing result. For FOUR YEARS not a single severe case of Cholera, Summer Complaint, or Dysentery, but has yielded like magic to the curative powers of the "killer" and for Cuts, Bruises, etc., it is in almost daily use, and with like good effects.

JOHN FANNER, Foreman of Wrightson & Co's Printing Establishment, Cincinnati, Ohio. Sold by Druggists and all Dealers in Family Medicines. HOLLOWAY'S PILLS.—The variable temperature and damp weather fearfully tell on the human frame, deteriorating the blood and producing morbid results in its reservoir—the lungs. Hence, on all sides we are surrounded by bronchitis, pleurisy, asthma, consumption, all of which might be readily cured by Holloway's new and powerful remedy, whose active principle purifies the blood, and causes all morbid matter to be speedily expelled from the body. In cases of indigestion, dizziness of sight, headache, mental and physical lassitude, these restorative Pills act as a charm. They expel rheumatism and gout, while they infallibly correct female complaints in young and old, delicate and robust.

DIFFERENT AS LIFE FROM DEATH.—This is the distinction between Bristol's Sarsaparilla and all Mercenary Medicines. The latter poisons the blood, the former purifies and invigorates it. When the power of death have been introduced into the veins by the operation of noxious nostrums nothing will arrest the march of the victim to the grave save this poison-creating antidote. So also when the virus of natural disease, working through the venous system, is developed in scrofulous ulcers, skin eruptions, cancerous swellings, leucorrhoea, or any other fearful external malady, this great remedy acts chemically upon the depraved blood and other animal fluids, changing them as if by a miracle, to pure and nourishing streams, bearing health and vigor into the system through which they flow. For sale by all Druggists.

THE BEST REMEDY FOR PURIFYING THE BLOOD, strengthening the Nerves, restoring the lost Appetite &c. FRESHER'S HAMBURG TEA. It is the best preservative against almost any sickness, it is timely. Composed of herbs only, it can be given safely to infants. Full directions in English, French, Spanish, and German, with every package. TRY IT! For sale at all the wholesale and retail drug stores and groceries.

AN ENEMY IN YOUR MOUTH. Do not put an enemy in your mouth to steal away your teeth. Beware of destructive tooth washes and tooth powders, many of which are base imitations of SOZODONT. Insure a life lease of sound teeth and fragrant breath, by adopting the fragrant SOZODONT.

SOMETHING THE WHOLE COMMUNITY SHOULD KNOW.—The traveler, furnished with Bristol's Sugar Coated Pills, is armed against those diseases of the stomach, liver, and bowels, common to all climates. The first thing to be done, in case of a bilious attack, is to empty the bowels. Bristol's Sugar Coated Pills do this rapidly, but not rudely. As the bowels are emptied, the system is cleared, the blood is purified, and the patient is restored to health. There is an excellent principle in them that prevents the irritation which thorough purgation would otherwise create. None of the sharp, cutting, spasmodic cathartics, which accompany the action of mineral cathartics, are ever experienced during their operation. They have no drawback, either immediate or contingent, and leave every organ they influence in a healthy state. For dyspepsia, piles, liver complaint, sick headache, suppression, vertigo, colic, and heartburn, they are the one thing needed, and no other known medicine can supply the place. They retain their properties unchanged in all climates, being put up in glass vials. In all cases arising from, or aggravated by impure blood, Bristol's Sarsaparilla should be used in connection with the Pills. For sale by all Druggists.

Auction Sales.

Wharf Street

The well known two-storied fire-proof premises now occupied by them and situated on Lot 14, Block 77, said lot having a double frontage of 25 1/4 feet on the street in the rear, and extending in depth 100 feet on the North and 94 1/2 feet on the South line; the proportion of cost of the party wall on the North side has been paid for by the owner of the adjoining lot, and the owner of the lot on the South side is bound by agreement to pay his proportion for the second story, should the building on his premises be raised.

Commercially, the position cannot be surpassed, and the substantial and handsome premises have been specially arranged for conveniently carrying on an extensive business. Gas and
